Forecast for Monday 07 Nov 2022

Weather: Many ranges starting dry and bright. Thickening cloud and outbreaks of rain will extend northwards during morning. Much of the rain will be focused in west, especially over mountains of Knoydart as well as Skye and Torridon. Drier and also brighter at times over Caithness hills and also in east of area towards Ben Wyvis.

Chance of cloud-free hill tops above 800m: 50% best chances in north and east of area.

Low cloud and visibility: Becoming misty at times during the day, especially over hills near to West Coast with patches of poor visibility and extensive clouds down about 600 to 700m. Mostly good visibility in north and east of area with more broken cloud cover.
